

# Urban Ecology Water

Council is working with local people, the Cooks River Alliance and Parramatta River Catchment Group to achieve the community's vision of swimming in our rivers. The following Council-run programs are helping to clean stormwater before it enters the waterways.

## Water Sensitive Urban Design (WSUD)

Learn how to filter stormwater by building rain gardens, wetlands, frog ponds and more in our three-part WSUD workshop series.

## Rainwater Tank Rebate

Council offers a rebate for rainwater tanks installed in the Inner West. Conditions apply. Learn more at

[www.innerwest.nsw.gov.au/rainwater-tank-rebate](http://www.innerwest.nsw.gov.au/rainwater-tank-rebate)

Tank set-up	Standard rebate	Low income rebate
Tank only (garden)	10c per litre	15c per litre
Tank internally plumbed to 1 use	13c per litre	20c per litre
Tank internally plumbed to 2 uses	18c per litre	27c per litre
Tank internally plumbed to 3 uses	20c per litre	30c per litre
Tanks in common areas of flats, units and apartments	Additional \$500 flat rate to body corporate

# Urban Ecology Biodiversity

Learn how to improve biodiversity in your backyard and neighbourhood. Visit one of Council's native nurseries or volunteer at a bushcare site.

## Council's native nurseries

### Rozelle Bay

22 Wisdom St, Annandale

### Marrickville

Addison Road Community Centre

142 Addison Rd, Marrickville

## Bushcare sites

Volunteer at one of the sites shown below.
