Ellis Bou-Harb		

Apologies

Stuart Whiting

Conflicts of interest

- Bridget Foley and Jonathan Ward work with the State Government transport agency.
- Li Ditlef-Nielsen works with a cycling service provider.

Discussion Items

Agenda Item	Discussion summary	Outcome
3. Revising the cycling network map	We looked at the network planning approach taken in the Marrickville Bicycle Strategy (2007) by the former Marrickville Council and considered whether a similar approach should be taken to the larger Inner West council area. This is ongoing work with the group to revise Figure 1 in the Inner West Cycling Strategy.	It was generally agreed that a hierarchical approach should be taken using either 2 or 3 levels to identify the level of facility. This work will continue in future meetings looking at the approach taken by other councils and eventually nominating streets/roads to which a hierarchy would be applied
5. Marrickville Rd east cycleway	The concept designs for the Marrickville Rd East cycleway were presented. Feedback provided by the group will be sent to the Project Manager	Brigid to send feedback comments to members for review before sending to the Project Manager.
6. Other business	Council's engagement team has invited the Bicycle LDG to trial use of portal within the YourSayInnerWest website as a way for members to communicate with each other.	The group is prepared to trial the portal.
