SUMMER HILL MAIN STREET STUDY 1993 INVENTORY Address: 46-50 Lackey Street Item No. Page No. 41 1/6 Name of Building: Former Name: Owner: Current Use/s: Lessee/s: **Date of Construction:** Builder: Architect: History: This building was erected between 1885 and 1890 and was originally of four bays including the adjoining No. 52, which has been demolished and rebuilt or had its top storey removed. The occupants of the shops in 1890 were: No. 46: Daniel Lancaster, fruiterer No. 48: Mrs A King, provision dealer No. 50: Joseph Lucas, jeweller and watchermaker References: Water Board plans Sands Directories Description: Three-quarters of a suite formerly comprising four shops with dwellings above, built of brick and stucco and detailed in the Victorian Free Classical style. The shopfronts have all been altered, but that of No. 48 probably shows its original format with its side ingo. The footpath awning, probably originally timber-posted, is now a suspended metal structure. Above that the facade is of stucco. There are no piers but the windows, two in each occupancy, have stilted rectangular head ornamentation and

bracketed moulded sills. Higher still there is a cornice, with paired brackets in a frieze panel, which forms the base of the perforated parapet which is divided into bays by short piers surmounted by urns.

Modifications: The southernmost pier of the parapet has had its urn removed. Four of the six upper windows now have slender metal frames and sashes.
