

Inner West Mayor **Darcy Byrne**

Artwork: Mulga

Dear resident,

I'm writing to let you know that works will soon be commencing on the renovation and upgrade of the Henson Park King George V Grandstand.

The NSW AFL and Inner West Council are investing \$12.5 million to bring you this project, this includes grant funding from both the Federal and NSW Governments. The works are scheduled to commence in late May 2024 for completion by June 2025.

This upgrade will secure Henson Park for the long term as the home ground for the Newtown Jets and the Sydney Swans women's team, a women's AFL hub, as well as a fantastic local facility for the whole community.

The renovation includes:

- Grandstand improvements including repairs to the first floor seating area, providing lift access to upper levels and complete upgrades to improve accessibility.
- Player amenities will be upgraded and reconfigured, providing change areas suitable for female players, accessible toilets and increased storage areas for sporting equipment.
- A new building at the rear of the grandstand providing female friendly player and officials change rooms, amenities, gym and club rooms.
- Upgrading to the areas surrounding the grandstand, including benches and seating, paving and drainage.

For details of the construction times and contact details of project managers please see the reverse side.

Henson Park will remain open for public use and scheduled sporting fixtures outside of the works zone areas which will not be accessible to the public during the construction works.

We appreciate your patience and co-operation while we complete these important works.

Yours sincerely,

Darcy Byrne
Inner West Mayor

For updates

Please contact Stuart Hull, Senior Manager Capital Works on 02 9392 5573 or stuart.hull@innerwest.nsw.gov.au

Please follow Council's website and social media for service and project updates.

Construction site information
