Dear Resident,

Inner West Council will soon be reconstructing the footpath in Darling Street Rozelle, between 736 Darling Street and 762 Darling Street, and upgrading the traffic facilities at the intersection of Darling Street and Denison Street.

Council is committed to delivering high quality, cost effective infrastructure and facilities for the community of the inner west.

Safety is a key priority for Inner West Council, and that is why we are investing in safe, accessible traffic infrastructure, which is vital to make sure that all drivers and pedestrians are protected.

Council is investing about $150,000 in this project.

These works are part of the $11,350,000 budget that Inner West Council has allocated to investing on Roads, Traffic Facilities and Stormwater this financial year.

For more information on this project, including start date, duration, how the undertaking of the works might impact you, contact details of contractor and Inner West Council's officer, please see the reverse of this page.
