22 November 2019

Dear Sir or Madam,

**Improving Stormwater Drainage in Cameron Street, Birchgrove**

Council is planning road and drainage improvements at Cameron Street, Birchgrove to better manage stormwater in the area and replace old infrastructure.

The proposed works include:

- Replace existing head on pits with new kerb inlet pits and reconstruct stormwater pipes at western side of the intersection Short/Cameron Streets
- Removing existing head on pits and converter and constructing a new dish drain at eastern side of the intersection Short/ Cameron Streets
- Constructing new kerb ramps
- Resetting sandstone kerbs to new levels between Short Street and Bay Street and constructing new concrete gutter
- Adjusting the height of the posts at the veranda (31, Cameron Street) to suit new kerb and footpath levels

Please refer to the attached plan for details and extent of the proposed works.

**Have your say**

You can comment:

- Online: e-mail your comments to council@innerwest.nsw.gov.au
- By mail: Inner West Council, PO Box 14, Petersham NSW 2049
- In person: submit your written comments to the Customer Service team at the Petersham Service Centre, or any of the other service centres.

**The last day to comment is Tuesday 10th December 2019.**

**What happens next?**

Council will consider any comments received before finalising the design plans for the proposed works.

**When is the work planned?**

The works are planned for this financial year depending on the outcome of the engagement process, funding allocations and approvals. Residents will be further notified before any works commence.

**Further information**

For specific enquiries about this project please contact me on 9392 5983 or council@innerwest.nsw.gov.au.

Yours sincerely

Nalani Patabendi

*Urban Water Engineer, Investigation and Design*
