Improving Safety and Calming Traffic in Goddard Street, at King Street, Newtown

Council is planning to construct a continuous footpath treatment in Goddard Street at King Street, Newtown to increase safety for pedestrians and motorists. At its meeting in September 2019, Council endorsed the final Newtown Local Area Traffic Management (LATM) report. The proposals within the report are based on community input and analysis offered back from the Public Exhibition period in April 2019.

The proposed works include:

- Removal of existing kerb ramps and replacing with continuous paved footpath.
- Repairing paving surrounding the works (The paving shown on the plans are indicative only and will be finalised in the detailed design)
- Reconstructing kerb and gutter in Goddard Street.
- Installing associated signage.

Please refer to the enclosed plan for more details. The works will take place in the 2021/22 financial year, subject to final funding allocations and approvals.

Have your say

Should you wish to provide any comments regarding the plan, please send the response by one of the following methods before Friday 19 June 2020.

Email: council@innerwest.nsw.gov.au
Mail: Inner West Council, PO Box 14, Petersham, 2049
In person: Customer Service Centre, 2-14 Fisher Street, Petersham NSW

Parking changes

This proposal will result in no net loss of on-street parking spaces.

What happens next?

Council has not yet made any commitment to change the traffic arrangements in the street. A report, together with the community’s comments and this proposal, will be considered by Council’s Local Traffic Committee at its meeting on 6 July 2020. The Committee will make recommendations for Council to consider at the July Council meeting.
Council will notify everyone who provided comments of the final decision.

The LTC meeting agenda will be available to view on Council’s website in the week before the meeting at www.innerwest.nsw.gov.au/council/meetings/committees/local-traffic-committee. Members of the public may register to speak at this meeting. If you wish to do so, please contact Council’s Administration Assistant – Infrastructure Services on (02) 9335 2213 to advise of your attendance.

**When is the work planned?**

These works are expected to be built in the 2021/22 financial year subject to outcome of this community engagement, final approvals and budget allocation. Residents will be notified before any work starts in the street.
