SUMMARY

This report provides the IAG with a high level summary of progress against the actions in the Integration and Innovation Plan (i-Plan).

RECOMMENDATION

THAT the report be received and noted and the IAG provide any feedback.

BACKGROUND

The Integration and Innovation Plan (i-Plan) outlines the key projects to establish the Inner West Council in preparation for the return of the elected Council. During the most recent period, significant progress has been made in the redesign of the organisation and roll out of a new structure, primarily facilitated by the appointment of the Level 3 Group Managers. We are investing in the leadership of our management team, through a high performance leadership program, and ongoing suite of training to support the resilience of our staff during transition. The service integration has been reshaped as the Integration and Transformation Program, incorporating the three streams of integration work across the organisation, including TechOne implementation. The establishment of the Strategic Reference Groups will facilitate valuable and meaningful engagement with our community, particularly as the early work is undertaken on the Community Strategic Plan process. We are well advanced in the preparation of the 2017-18 Budget, the first integrated budget for Council. Preliminary work is underway for the co-location of staff, to support Service Unit's operating as one team, with one Inner West culture. These highlights are detailed below.

Current Status

A status overview against the actions in the i-plan is provided in **Attachment 1**. There has been significant progress made over the last period.

Organisation re-design: Appointment of L3 Group Managers

On 2 December 2016, Council's Level 3 structure was implemented with the appointment of Group Managers. 15 roles were internal appointments, reflecting the depth of talent and expertise within Council.

Group Manager	Service Unit	Portfolio
Elizabeth Richardson	Development Assessment and Regulatory Services	Assets and Environment
Jan Orton	Environment and Sustainability	Assets and Environment
Wal Petschler	Footpaths, Roads, Traffic and Stormwater	Assets and Environment
Kelly Loveridge	Procurement and Fleet	Assets and Environment
Brooke Martin	Properties, Major Building Projects and Facilities	Assets and Environment

Group Manager	Service Unit	Portfolio
Cathy Edwards-Davis	Trees, Parks and Sportsfields	Assets and Environment
Josephine Bennett	Aquatic and Recreation	Community and Engagement
Annette Morgan	Children and Family Services	Community and Engagement
Simone Schwarz	Communications, Engagement and Events	Community and Engagement
Erla Ronan	Community Services and Culture	Community and Engagement
Caroline McLeod	Library and History Services	Community and Engagement
Pav Kuzmanovski	Finance	Chief Finance and Information Officer
Tanya Whitmarsh	Governance	Chief Finance and Information Officer
Nellette Kettle	Integration, Customer Service and Business Excellence	General Manager
Joe Strati	Legal Services	General Manager

Two of the three remaining positions (ICT, HR and Strategic Planning) are in their final stages of external recruitment. Melodie Whiting has been appointed to the role of Group Manager, Human Resources and will commence in February 2017.

Organisational Structure

Following their appointment, Group Managers commenced consultation with staff regarding the structure within their Service Units. Consultation workshops were held in December and January and will continue through February, allowing sufficient opportunity for all staff to give feedback. It is anticipated that L4 and below structures will be considered by the Joint Consultative Committee in March. The internal recruitment phase will then commence.

Organisational development: High Performance Leadership Program

Following their appointment, the Leadership Group have begun a six month structured program to invest in their capacity to lead their staff, particularly during this period of change and transition. Adopting a whole person leadership model, the program encompasses five focus areas for developing high performance. These include:

- Creating a leadership vision of cultural change
- Creating a culture of results and accountability
- Success without stress
- Leading high performance and creating self aware teams
- Leadership effectiveness – managing ourselves, time management and work/life balance.

In addition to the investment in our leadership, we are building capacity in business improvement. In February, 20 staff from across the organisation will participate in a three day Business Excellence in Local Government program. The Australian Business Excellence Framework is Council's chosen methodology for continuous improvement and organisational development. (The I-Plan has embedded this framework in its structure.) Training is also underway in facilitation skills, reflecting the ongoing need for staff to facilitate sometimes complicated or complex discussions as we integrate.

Service integration: Integration and Transformation Program

Building on the outcomes of integration workshops held with teams in late 2016, the Integration and Transformation framework has been established. The Program comprises three streams:

Stream 1 (TechOne Implementation) will be detailed further below.

The Corporate Priority Projects (Stream 2) were identified by the Leadership Group and include projects that are critical to our ability to function as one organisation, such as:

- Intranet development
- Organisational values
- Performance management system
- Consolidated asset database
- Customer service strategy
- Co-location plan

Many of these projects have already been scoped and are progressing, while others require more detailed planning and an allocation of resources.

Service Unit Projects (Stream 3) are specific to the work of service units and teams. Most of these projects were identified and planned during integration workshops in late 2016. Group Managers are currently prioritising these projects and determining resourcing within their units.

The Integration Unit, as the centralised Project Management Office, will coordinate projects across all streams. This will facilitate coordination of critical dependencies and efficient project monitoring and reporting. Resourcing of the Integration Unit is nearly complete. In late January, the first of two Business Analysts, Brigid Meehan, commenced work.

Systems integration and transformation: TechOne Implementation

The TechOne Implementation project has commenced. Recognising the scale and complexity of the work, a fulltime Project Manager has been contracted to provide the expertise needed and ensure this project is delivered on time and within budget. To support the Solution Design process, five project teams have been initiated to review the processes and identify if variations are required to meet our requirements. Project Teams are lead by a Subject Matter Expert, with up to eight Business Process Representatives, from across Council. The Project Teams are working efficiently to review all processes while consulting with staff who are directly impacted by the process.

TechOne will be rolled out in stages. The first suite of applications will go live on 1 July 2017, with the entire roll out to be completed by December 2018.

Strategic Reference Groups

Recruitment of the Strategic Reference Groups was finalised late 2016, with the exception of the Aboriginal and Torres Strait Islander Reference Group. This group's recruitment process has been deliberately protracted to engage with key stakeholders and design a process suitable for this community. The EOI process for this group closed on 30 January.

A governance structure has been determined for the Strategic Reference Groups and terms of reference drafted, to be reviewed by each group at their first meeting. The first meetings of all Strategic Reference Groups will take place in early February. (Youth Leadership is scheduled for late February to allow adequate time for the start of the school year.) While agendas will be determined in consultation with the groups, the commencement of the reference groups presents an important opportunity for engagement on the Disability Inclusion Action Plan in the coming months. The reference groups will also be pivotal to the early work to develop the new Community Strategic Plan.

Integrated Budget 2017-18 and Fees and Charges

We are well progressed in the preparation of the Inner West's first integrated budget for 2017-18. Since appointment, Group Managers have been reviewing budgets from legacy councils and consolidating them under the new Service Unit structure. A draft, high-level 2017-18 Budget will be presented to LRAC in March.

Work has also progressed on the integration of Fees and Charges for 2017-18. The underlying principles for our approach to Fees and Charges will be presented to LRAC in March. In summary, statutory fees and those where there is little discrepancy between fees and charges will be prioritised for integration. The remaining fees and charges will be determined through the integration of services and functions.

Co-location

To operate as one team and build one Inner West organisational culture, it is imperative that staff are co-located. During December to mid-January, an assessment has been undertaken to document the existing office facilities and future Service Unit requirements. Currently, options for location arrangements are in development. The aim of these options is to maximise the existing resource utilisation and allow Service Units to work cohesively together. In addition, decisions around co-location of teams and units will be made based on a set of principles:

1. Co-locate teams with their Group Manager as much as possible

2. Consider long-term accommodation strategy
3. Minimise interim office amendment costs
4. Continue three service centres in Ashfield, Leichardt and Petersham
5. Minimise the number of staff movements for staff
6. GM and Mayor to be closely located, with Legal and HR close to the General Manager and Governance (Business Papers) close to the Mayor

The options under development aim to utilise all existing office space and present options that exclude the use of our smaller depot sites (Balmain and/or Summer Hill).

Consultation will be undertaken on the options in February. A detailed plan, including logistics, procurement and communications, will be developed to support the colocation process implemented in April.

FINANCIAL IMPLICATIONS

A draft budget for merger implementation has been prepared.

OTHER STAFF COMMENTS

Relevant staff have contributed status comments for their actions items.

PUBLIC CONSULTATION

This status report is published on the Council website

CONCLUSION

Significant progress continues to be made in establishing the Inner West Council as outlined in the report.
