

Perfect Match Public Art Program Guidelines for Artists

Introduction

The inner west hosts an outstanding collection of street art and Perfect Match Public Art Program brings artists, residents, businesses and property owners together to foster innovative and contemporary creative expression and fantastic art in public spaces.

Perfect Match is part of Council's multifaceted approach to the prevention and management of unwanted graffiti. Council recognises that unwanted tagging and graffiti can be an issue effecting residents, businesses, the environment and community wellbeing.

Through Perfect Match Public Art Program, funding is available for residents, community organisations or business owners to have a street artwork painted on a wall that has been subject to recurrent unwanted graffiti or tagging. Artists can apply to be commissioned by Inner West Council to collaborate with property owners to develop concepts and create site specific works on walls across the inner west.

Aims

The aims of Perfect Match are to:

- reduce illegal graffiti and tagging on walls by removing blank canvases;
- support and provide opportunities for artists;
- grow the inner west's collection of innovative contemporary street art;
- build relationships between artists and local residents and/ or businesses, property owners and community partner organisations;
- enable residents, businesses and surrounding communities to be involved in the selection and development of artworks at selected properties;
- use innovative art to highlight and reflect the inner west's unique places, history, stories and character;
- provide opportunities for artists to contribute to the creative economy; and
- attract existing and new audiences to the inner west through a program to celebrate the area's unique places, creativity, arts and vibrant culture.

Selection of Artwork Installation Sites

In relation to the selection of artwork sites, please note:

- Property owner and artist applications are competitive. Council receives far more applications than can be funded.
- To determine selected artwork sites, a variety of factors are considered, including:
 - Location and profile of the wall, overall visibility and benefit to the community, passers-by and visitors to the area;
 - The degree of recurring unwanted graffiti at the site and how the Perfect Match Public Art program will support graffiti prevention initiatives;
 - Context of the streetscape and surrounding communities;
 - Heritage zoning and precinct identity considerations; and
 - In some circumstances a Development Application may be required to address zoning issues.

Maintenance & Graffiti Proofing

The project covers a one off fee for Inner West Council to commission the artist to paint the street artwork. Council and you (the artist) are not responsible for long term maintenance of the artwork. It is anticipated that if you paint a street artwork, the owner of the property will not paint over it for as long as the mural is in reasonable condition. As part of the Artist Contract and project deliverables, you will be required to provide a brief maintenance schedule. This will include details of paints and colours used and recommendations for maintenance of the art.

Council will encourage the property owner to cover the cost to apply a graffiti proof coating immediately following completion of the artwork.
