Mayor's message

The people of the Inner West have fought for years to bring our vision of the GreenWay to life.

That's why it's so exciting that this unique active transport, public art and biodiversity corridor is now complete.

This continuous connection from the Cooks River to Iron Cove will connect the whole Inner West like never before, and transform the way locals can travel.

This is the largest infrastructure project we have ever undertaken.

This collaboration between the Inner West and the State and Federal Governments will benefit our community for generations to come.

Thank you to everyone who has helped advocate for and now deliver the GreenWay for our community.
