GreenWay construction notice

Water main works, Summer Hill

NEW DATES: Monday 5 May to Wednesday 7 May 2025

The GreenWay is a major pedestrian, cycling, and biodiversity corridor linking the Cooks River at Earlwood with the Parramatta River at Iron Cove. As part of the GreenWay works, water main connection works will need to take place on Edward Street in Summer Hill.

Where will the construction take place?

Construction will take place adjacent to 46 Edward Street, near the intersection of Old Canterbury Road in Summer Hill. To minimise disruption, these works will be undertaken on each side of the road consecutively. This staged approach will ensure that one lane remains open for road users throughout these works.

What type of work is being done?

As part of the water main connection works, GreenWay contractors will cut through asphalt and use an excavator to locate the existing water main connection. A section of the kerb and footpath will need be removed, however will be re-instated upon completion of these works.

When will these works take place?

The works are scheduled to take place from Monday 5 May to Wednesday 7 May 2025 (weather permitting).

Works hours: 7am – 5pm.

What will be done to minimise inconvenience for me?

Works will be undertaken in stages, with one side of the road remaining open at all times. A traffic control plan will be in place to guide traffic during this time.

The contractor will undertake mitigation measures in accordance with their Construction Environmental Management Plan to reduce noise, dust, and debris associated with these works.

Updates and enquiries
